LORA

PRECISION STRIKE TACTICAL MISSILE

When Results Matter

A Surface-to-surface precision strike missile system answering Army as well as Navy requirements.

General

LORA is the effective solution for destroying targets deep in enemy territory. Outstanding response time and precision. No weather or visibility constraints. Survivability in flight due to supersonic velocity and shaped trajectory.

Ground Launcher

Naval Launcher

Operational Requirements

Range.....
 Accurate Hit.....
 Wide range of targets.....
 Maintenance

Fast reaction.....
 Guidance

Penetration.....
 Compact.....

Weight.....
 Length.....
 Diameter.....
 Angle of Impact

Angle of Attack.....
 Reliability.....

LORA Specifications

90 to 300 km

TCT and stationary

No missile preventive maintenance (one check each 5 years)

Minutes from Command-to-Target hit

GPS/INS

Penetrates fortified targets

4 sealed missiles on a regular 16 ton flat-bed truck

1600 Kg

5.2 m

624 mm

60° - 90°

0° + 2°

Single stage, solid rocket motor

All solid state electronics

All electric drives (no hydraulics)

The missile is sealed in its canister

LORA Mobile Battery - Basic structure
