

G280 Maritime  
Patrol Aircraft - MPA  
ELI-3360

# G280 Maritime Patrol Aircraft - MPA

## ELI-3360

The ELI-3360 is a Maritime Patrol Aircraft (MPA) that combines ELTA's operationally-proven sensors and mission system with the superior performance of Gulfstream's G280 business jet platform. The solution ensures rapid deployment, cost efficiency, and superior ride performance, making it ideal for extensive coastlines and wide EEZ coverage.

Equipped with an Active Electronically Scanned Array (AESA) multi-mode radar from the ELTA's world-renowned airborne radar family, ELI-3360 provides exceptional maritime, ground and aerial surveillance, imaging, and tracking. The radar can detect and identify a wide range of targets, from large warships to small speedboats at high altitude, ensuring comprehensive, more efficient and effective coverage than legacy turboprop solutions.

The aircraft is open architecture and equipped with an Electro-Optic Infra-Red (EO/IR) Imaging payload for day and night observation, and a Search and Rescue - Direction Finder (SAR-DF). It can easily be augmented with additional sensors for Signals Intelligence (SIGINT) and maritime environmental protection. Additionally, the aircraft features a comprehensive Self Protection Suite. The entire payload suite is managed by ELTA's Multi-Mission Management System.

### MISSIONS

- Exclusive Economic Zone (EEZ) Maritime Patrol
- Maritime Situational Awareness
- Search & Rescue
- Medevac
- Environmental Monitoring & Control

### SYSTEM CHARACTERISTICS

- High-performance midsize business jet, proven in maritime environment
- Reduced Life Cycle Costs
- High altitude mission operations
- Open architecture for future integration

Customers can select from a wide variety of sensors and communications integrated with a Multi-Mission Management System:

#### Sensors

- ELM-2022/2025 Multi-Mission Radar integrated with IFF
- Multispectral EO/IR System
- ESM/ELINT and CSM/COMINT
- Environmental Monitoring Sensors
- SAR-DF

#### Self-Protection Suite

- Radar Warning & Locating System
- Missile Approach Warning System
- Chaff & Flares
- RF-Jammer

#### C4I

- Voice and Data Communications: Radios, SATCOM, Tactical Datalinks, LOS
- Multi-Mission Management System (MMS) up to 6 Operator Stations
