

POINT-BLANK

VTOL Precision Strike Missile

POINT-BLANK

VTOL Precision Strike Missile

GENERAL

Point Blank is an electric lethal VTOL (vertical takeoff & landing) precision strike missile, which brings new attack capabilities to the troops, and significantly improves the independence and survivability of the units.

ADVANTAGES

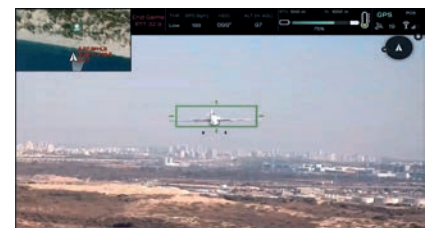

- Launched by hand (launcher free) or remotely (canister)
- Multi-domain land and sea
- Guidance - Electro-Optical and GPS
- Mission abort option and autonomous return home
- Fast engagement and high maneuverability
- Stealth Operation (low voice and thermal signature)
- Automatic End-Game (after operator lock on target)
- Very simple to learn and operate
