Quadcopter

GENERAL

APUS is a breakthrough multi-domain system with exceptional flight endurance and versatility in payload options, making it an invaluable asset for tactical forces. APUS employs a heavy-fuel internal combustion engine, which enhances its operational efficiency and performance.

ENDURANCE

Payload (Kg)	Endurance (Hr)
3	6
5	4
7	2

SPECIFICATIONS

MTOW	24 kg
Useful Load	10 kg
Endurance	Up to 8 Hours
Max Operational Alt	10,000 ft.
Propulsion System	Internal Combustion Engine
Fuel Map	JP5, JP8, Jet A1, Gasoline
Cooling	Liquid cooling
Payload Power Supply	300W
Size (cm)	160x160x50 Prop to Prop
