Multi-Role Male UAS

# HERON TP

## Multi-Role Male Uas

Medium Altitude Long Endurance (MALE) UAS sets the new standard in mission envelope payload capability and system reliability.

### THE HERON TP OFFERS

- Multimission / Multi Payload configuration
- Large internal volume for a variety of payloads
- All weather capability
- Satellite Communication (SATCOM) for extended range (Beyond Line of Sight - BLOS)
- Operation above commercial traffic
- Triple redundant avionics
- Automatic Taxi-Takeoff - Landing (ATOL system)
- Certified to STANAG 4671
- Compatible with NATO Standards
- Long Range and stand off operation

### PERFORMANCE

Mission Radius	BLOS > 1,000 km
Endurance	> 30 hr
Ceiling	> 45,000 ft
Max. Speed	220 KTAS

### TECHNICAL DATA

Max. Takeoff Weight (MTOW)	5,670 kg
Payload Weight	up to 2,700 kg
Wingspan	26 m
Length	14 m
Turboprop Engine	1,200 hp PT6

### FULLY OPERATIONAL WITH THE ISRAELI AIRFORCE
